WEDDING QUESTIONNAIRE
8.5 X 11"

EDITABLE/PRINTABLE!!
PNG, PDF, JPG

HEY! I'M TATIA

Thank you for your purchase and supporting my business! I am 'Tiastemplates" store designer, who has a passion for design. I am an actress and Physicist but during the pandemic I decided to change my whole life and just do what I really love. Designing, drawing, creating posters, cards and many other things, which make me calm and happy.
Thank you for choosing my store! It means a lot to me.
I hope to meet you again soon!!

Instructions

1. Click the image above to be taken to your editable design in Canva. You will need to login or create an account with Canva to edit your designs. Don't worry, it's totally free and safe to use.
2. Once you have logged in , click "Use Template".
3. From here you have several options available to you.Watch the video below to see a full tutorial

Adding Text :

1. Click the Text icon in the left menu and then select "add a little bit of body text" (or for a quick command you can click on the document you want to edit and simply type "t") and a text box will appear for you.This works the way all text boxes do.
2. Type in your text and then choose your font from the font menu at the top. You will see there are literally hundreds of fonts to choose from. Some are free and some are not. If the font has a little gold crown symbol next to it that means it's a paid font and you won't be able to use it without paying for your edits.

Changing Text Color:

- Once you have your text entered and sized how you'd like you can change the colour r by clicking the **"A"** with the color box under it at the top of the screen.This will allow you to quickly choose a common color, choose a color I've already selected as part of the document (easy way to make everything match) or create custom color by using the "new color" box at the top of the menu.

Instructions

Correcting Errors:
- While you're editing you may accidentally delete something or add something you don't want. If this happens don't worry .You can click the "back arrow" icon at the top left of your screen and it will magically erase the last thing you did.

-

- **Saving Your Document:**

- The document will auto save every 5 seconds so all of your work is basically saved in real time. When you're all editing and you want to download your design simply click the "download " at the top right of the screen. you can choose Download as a PDF Standard file or PDF print.

Download and Print:
After downloading find the file in your "Downloads" folder.If printing at home, be sure that the file prints at 100% or "Actual Size" in the print settings ('Scale to Fit).If you are printing at the print shop, save the file to a USB flash drive, SD card or email, if available.

Click **here**- for video Tutorial-
In this video you can see how to change
font , text colour, how to rotate or add a
new element, delete it and other things,
which is helpful for editing. Enjoy your time
and text me if something will be unclear
